T110 F4

Altos T110 F4 delivers true server-class features and expandability along with best price-performance technology to assure the success of your business. This single-socket tower server features an 80 PLUS® efficient power supply that runs smoothly and quietly for maximized productivity.

Smart investment for your growing business

Driven by Intel® architecture, with great memory capacity and high performance, this tower server uses industry-leading 14nm processors that handle large workloads more efficiently. Flexible expansion slots, plus up to 16 TB of space for data storage satisfy the demands of your growing business.

Meeting business needs with best value

Altos T110 F4 is packed with dependable server-class hardware, including an integrated Gigabit Ethernet controller for speedy and safe data transmission, and built-in 6-channel SATA with software RAID 0, 1, 5 or 10 to ensure data security.

BMC management

Altos T110 F4 is equipped with a Baseboard Management Controller (BMC), which offers a higher level of manageability for professional tower servers. Combined with a full array of management utilities and front-panel system health LED indicators, you can stay abreast of your server at a glance

Cost-effective expandability, green computing

Altos T110 F4 is designed with a tool-less chassis that enables easy component access, reducing maintenance and service costs. What's more, this tower server is equipped with an 80 PLUS® power supply for maximum energy efficiency.
